

Il fascino della bellezza.

La guardi, resti incantato
e cominci a desiderarla.
Di lei ti colpisce ogni parte
perché è stata creata
per essere ammirata.
Le forme, i materiali, ti affascinano.
Segui le sue linee e la senti già tua.
Sottocoperta capisci che è unica,
diversa da tutte,
nata da persone che hanno
dedicato la vita alla costruzione
di una barca così speciale.

The glamour of beauty.

You look at it, remain enchanted
and begin to long for it.
You are struck by each one of its
parts because it has been created
to be admired.
Its shapes and materials charm you.
You follow its lines and feel
it as already yours.
Under deck you understand
that it is unique, different from
all the others, born from people
who have dedicated their life
to the building of a so special boat.
